DNREC Tank Management Section (TMS)
2018 UST Class A & Class B Operator Training

Note: All UST facilities must have designated Class A & Class B Operators that have successfully completed a Department approved training program.

Underground Storage Tank Operator Training (no fee)

Upon completion of this training course, the student will demonstrate a broad understanding of underground storage tank (UST) systems operation, safety, regulatory and emergency procedures (EPA 40 CFR and Delaware UST Regulations). Students will be able to identify components of UST systems, explain methods of inspection, required record keeping, financial responsibility and basic spill prevention methods.
